

MacSensor™ Solution

SUNi
MEDICAL IMAGING INC

MacPractice
The COMPLETE Mac Solution for a Dentist's Office

Designed for all of your intraoral imaging needs, SuniRay sensors are extremely comfortable, flexible and easy to use.

SUNI's new SuniRay digital radiography system makes it easy to capture and analyze dental radiographs quickly. Using the latest CMOS technology, the MacSensor™ Solution of SuniRay and MacPractice DR software deliver exceptionally high image quality with maximum diagnostic capabilities.

Designed and manufactured in Silicon Valley, SuniRay represents the perfect balance of form and function. SuniRay's ergonomic design and rounded corners ensure easy positioning and optimal patient comfort. Plus, the unique design of its reinforced cable attachment and hardened outer casing makes SuniRay incredibly durable and reliable.
